PROFESSIONAL EXPERIENCE

Senior Software Developer, Global Relay

Jan 2024 - Present

- Current Job

Intermediate UI Developer, Coremont

Jan 2022 - Oct 2023

- Contributed to a cloud-based financial portfolio management platform serving global clients.
- Developed UI components using React, TypeScript, and Redux.
- Utilized GitLab for version control and CI/CD pipelines.
- Conducted unit and integration testing with Jest and Enzyme.
- Participated in Agile workflows, including sprint planning, reviews, and retrospectives.
- Collaborated with cross-functional teams, including back-end developers, QA analysts, UX designers, and product managers. Coordinated testing and validation, ensuring compliance with industry standards.

Junior JavaScript Developer, AG-Grid

Nov 2018 - Dec 2022

- Provided developer support for React, Angular, and Vue.js, including debugging, handling feature requests, and delivering code workarounds.
- Worked with state management libraries, testing frameworks, third-party integrations, and built end-to-end applications.
- Authored help center articles and created tutorial videos for “Getting Started” guides on various frameworks.
- Developed a CLI tool to streamline project generation for support requests.
- Conducted workshops and one-on-one training sessions for team knowledge sharing.
- Represented the company at developer conferences, showcasing the product to attendees.

EDUCATION

BEng, Mechanical Engineering

2014 - 2017

Queen Mary University of London
